

Bristols

- I went from Bristol Stomp to Bristol Chart!
- Clever enough. Best to stop there.
- Or from Merrie Old to...?
- You were warned! Bristol in the song is in Pennsylvania!
- Can't be! Wouldn't fit in my brilliant compendium!
- You won't hafta rethink Chart. Knowing your erratic bowels, got that right!
- Ah the nature of what I get straight nowadays!
- Characteristics of various poops with clinical photos in various browns--mostly. Aesthetics is wonnerful!
- Not many songs about growing old, except the sloppy sentimental.
- The body presents most problems clearly.
- Not to say clinically.

- Too! So much that some folks opt out.
- Overdoses most common in that sad gang!
- Fight on! Courage wasted on the young anyway.
- Isn't everything?
